THE TRACK

//

Driving the Bohema is an experience like no other. I do not recall driving a road-legal car that's this close to a race car. Some of them will go into collections, but I hope many of them will go to racetracks, because, as a racing driver, I believe a car like the Bohema should be on the track. And I can tell you that if you see this car on the track, the guy who is driving it is a top driver.

Romain Grosjean

The Bohema is about perfect balance and the purest driving experience, purified by removing weight and unnecessary electronics.

LIGHTWEIGHT

Being fastest is not just about max power. An obsession with weight reduction delivers extreme performance, achieving a remarkable total weight of under 1000 kg.

AERODYNAMICS

Aerodynamics are key to being the fastest through the corners. The Bohema generates 900 kg of downforce at 250 km/h.

TECHNICAL SPECIFICATIONS

Praga/Litchfield-developed PL38DTT engine

Cylinders / valves: 6 / 24

Engine power: 700 bhp at 6,800 rpm

LHD / RHD

Downforce at 250 km/h: 900 kg

The simple fact that

***YOU CAN DRIVE A RACE CAR ON THE
ROAD IS ENOUGH***

COMFORT

& Bespoke Functionality

Just because it's race-bred doesn't mean it can't be luxurious and practical. The Bohema features air conditioning, tailored luggage compartments, high quality leather or Alcantara and perfect ergonomics for two tall adults to sit comfortably.

The bespoke steering wheel is unique to the Bohema, developed for perfect ergonomics, no matter the size of your hands.

Bespoke, ergonomic control panel offers exquisite design and functionality.

Every detail is perfect...the exquisite hidden pop-out holder allows you to use your phone for an 'always up to date' sat-nav.

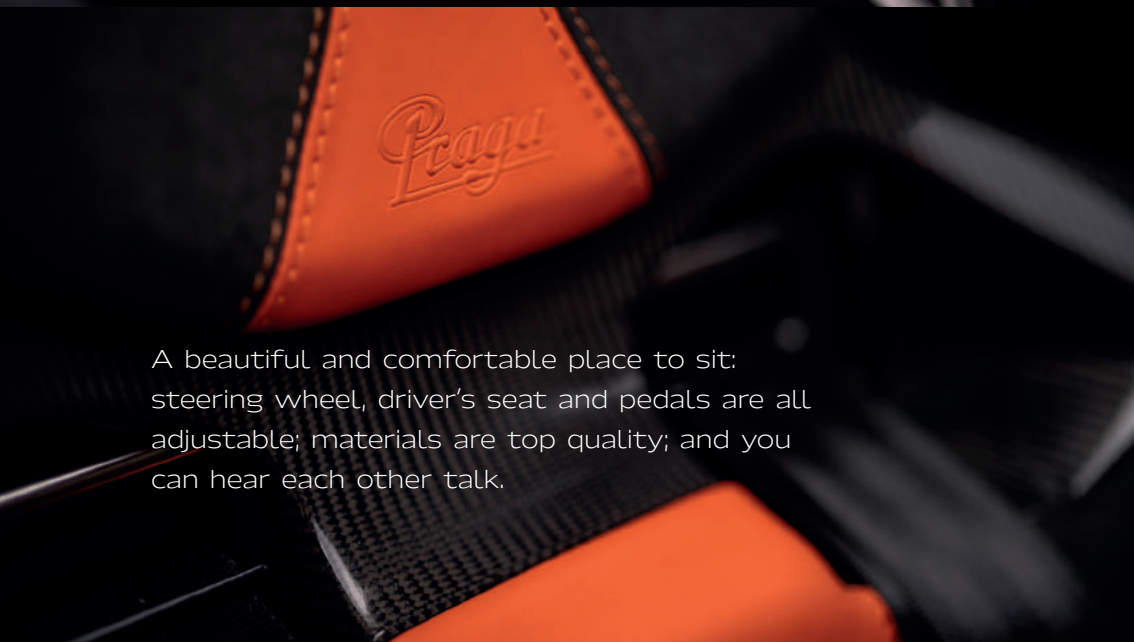

The car comfortably seats two occupants with the driver's seat is electronically adjustable.

Bespoke luggage produced in high-quality leather slips into the Bohema's deep side storage wells to pack for your track gear or weekends away.

ART OF HANDCRAFT

The car comfortably seats two occupants who will feel the hand-built interior quality and appreciate its obsessive focus on ergonomics.

A beautiful and comfortable place to sit:
steering wheel, driver's seat and pedals are all
adjustable; materials are top quality; and you
can hear each other talk.

TEMPTED?

Test ride and drives begin this summer
